25X1A The following information was received from [REDACTED] on my visit to [REDACTED] 18 November:

"According to the official list of VVB's, there is no Erkner Kuggellagerfabrik under VVB-WW. In 1948, there were plans to rebuild the old plant which had been destroyed by the Soviets after the war. The wartime name of the plant was Fischer Kuggellagerfabrik. At that time, two barracks were built on the site of the old Fischer plant.

"It is suggested that there may be confusion with two other industrial installations: the Plasta II Works (a plastic plant), also in Erkner, and/or the VEB Walslagerfabrik, Berlin-Lichtenberg, Rittergutstrasse 44-46, formerly the Norddeutsche Kuggellagerfabrik. The latter is a Schwerpunktbetrieb (S 5) under the Ministry of Machine Construction, HV Schwermaschinenbau."
